### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows: on page 1 line 4 of the specification, add the sentence -This application is a continuation of US Application 10/206,506 filed July 26, 2002.-; the second sentence of the abstract which begins on line 4 and ends on line 6, has been deleted; the last sentence of the abstract which begins on line 16 has been deleted. The above amendments regarding the abstract were made to overcome an objection to the abstract based on the requirement that the abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited.

### **REASONS FOR ALLOWANCE**

3. The following is an examiner's statement of reasons for allowance: In light of the amendment filed on July 22, 2004 and further examination of the art of record, it has been decided that the art considered as a whole, alone or in combination, neither anticipates nor renders obvious the claimed method and apparatus for wrapping an elongated article comprising a bonding arrangement including an bonding agent application means upstream or an area at which areas one or more webs are overlapped; an internal backing member adjacent the elongated article and underlying the overlapping area of one or more webs, which extends downstream of the over area at

which one or more webs are overlapped; and a pressure application member that bears against the overlapping area of the one or more webs and against the internal backing member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
